Twelve Mon Must Pass on the Validity of the Lederer-Newcomb Marriage.

Judge Lawrence, of the Supreme Court, to-day directed that two issues which have been framed in the suit of Ida Florene Newcombe for the annulment of her marriage with George W. Lederer be tried by a jury.

These questions are as to whether the defendant was married to Clara Binns (or Chester) at Boilaio, Oct. 25, 1888, and whether Clara Binns (or Chester) at Boilaio, Oct.

Miss Laura Burt has secured the play in which Patrice tarred. She has called it "Our Ninou," and will go out in it this month, opening on the 16th in Worcester, Mass., under the management of Messrs. Elisier and Lynch. Miss Burt has an "contional soubrette" role, whatever that may be; Miss Martan About is the leading lady and Ed Morris the comedian.

There is said to be trouble brewing for the popular comedian Roband Reed. George Jessop and William Gill wrote a comedy for him entitled "Atherican Assurance," which, they contend it was agreed to give as an important New York production. It was also result of a good deal of study, and they calculate i that the grist would come to the mill at an early inte. Boland Reed, however, has declined to see the wisdom of abandoning his present play, the ever-popular "Woman Hater," which is a "sure thing," unattended with any risks. The uncertainty of producing a new play is always a source of anxiety to the producing. So thereby haugs a tale, Manager Jack, Mr. Reed's amable pilot, baid yesterday that "American Assurance" would unfoulted by the presented at a Broadway Theatre in the Spring or Autumn, but that for the present "A Woman Hater," was good enough and would be continued. Mr. Jack looked as though he didn't mind legal fisticuffs in the least.

So the design was then interrogated with reference to contracts and orders for other supplies, for cobblestones, for coment or for rip-rap was not exorbitant, the method of purchese he designed to see the wisdom of abandoning his present play.

A scare about the santary condition of the docks which recommended dredging as a cure was raised, and the Dock Department was urged to act.

Commissioner Cram, however, said that he prevented the saddling of this great expense on the city.

The Commissioner admitted that the Department had advertisell for dreiging at West Washington Market, which had already been done, and gave a contract to the Union Dredging Company as the lowest bidder.

The reason for this, he said, was because this Commany had exceeded the requisitions of the Department in dredging at this point, and their contract was let to over this work already done.

He admitted it to be a grossly irregular proceeding.
